

Your family's health and safety is our top priority!

When it comes to having work done in your home, you have lots of options. There are many that call themselves contractors, but that can be very deceptive. Not all contractors are created equal! We believe that the more you know about us, the more you'll trust us to do a quality job for you. Providing the official lead paint pamphlet, Renovate Right, is just one way that demonstrates our commitment to be in compliance with current laws and regulations. It also shows our concern for your family's health and safety.

Please review the pamphlet at your earliest convenience.

Thank you.
Dennis M. Lane

I hereby acknowledge receipt of the "Renovate Right" pamphlet. This pamphlet informs me of the potential risk of lead hazard exposure from renovation activity that may be performed in my home. I confirm that I received this pamphlet before any work began on my home.
